Where: CS Conference Room, Faner 2127

Date	Speaker	Title
September 17	Dr. Henry Hexmoor (From 11:00 ~ 12:00)	Computational Trust
September 29	Dr. Bidyut Gupta (From 10:00 ~ 10:50)	An Improved Recovery Approach for Distributed Computing Environment
October 20	Dr. Kemal Akkaya	A Group-based Lightweight Authentication Protocol for Vehicular Ad Hoc Networks
October 27	Dr. Qiang Cheng	Selecting Optimal Feature Subsets with Applications to High Dimensional Data
November 10	Dr. Wen-Chi Hou	Query Size Estimation on XML Data
November 17	Dr. Mengxia Zhu	Problem Classification and Complexity Analysis for Computational Steering in a Distributed Environment
January 28	Dr. Shahram Rahimi	Multi-agent Modeling: Design and Implementation
February 11	Dr. Namdar Mogharreban	Strategy for Implementation of an E-learning Environment
February 25	Dr. Daren Che	Querying Stream XML Data Mines
March 18	Dr. Mehdi Zargham	High Dimensional Clustering
April 1	Dr. Michael Wainer	Refactoring for Graphical User Interfaces
April 15	Dr. Norman Carver	Approximate Distributed Bayesian Networks
